

The NCI Cancer Genetics Services Directory on the National Cancer Institute's Web site (cancer.gov) has a feature that allows annual updates to be processed by e-mail. Your record indicates your preference to complete your annual update electronically; however, you always retain the option to receive a printed update mailer.

The information provided through the link below reflects your current listing. Please verify that the information is correct, and update or change your record as needed. Please submit your completed update within 7 business days, if possible. To access your record, just click on the update link and use the ID number and password provided below.

The information provided by you or your authorized representative will be used to update your listing in the NCI Cancer Genetics Services Directory. If you have any questions, please send e-mail to NCIGeneticsDirectory@aspensys.com.

Your submission will be entered into the database as soon as it is received and will appear on Cancer.gov when it is next updated.

UserID: CSnyder

Password: MCY664

Link: <https://ncicips-xnet.net/cms/ncicgs/login.asp>

Thank you for your cooperation in verifying this information so that your listing in the NCI Cancer Genetics Services Directory stays accurate and useful.
